DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 3-11, 19-27 and 43-45 are rejected under 35

U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In claim 43, lines 11-15, the recitation of "selecting a spinneret . . . of the filaments" is not supported by the originally-filed specification and thus, constitutes new matter. In claim 44, lines 8-12, the recitation of "selecting a spinneret . . . of the filaments" is not supported by the originally-filed specification and thus, constitutes new matter.

Claim Rejections - 35 USC § 103

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

 Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
- 5. Claims 3-11, 19-27 and 43-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mallonee (U.S. Patent 5,811,040 A) for the reasons of record.

Art Unit: 1732

6. Claims 3-11, 19-27 and 43-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mallonee (U.S. Patent 5,811,040 A) in combination with Sawyer et al (U.S. Patent 5,082,899 A) for the reasons of record.

Response to Arguments

- 7. Applicant's arguments filed on 09 August 2006 have been fully considered but they are not persuasive.
- 8. Mallonee teaches (e.g., Example 1) a spinneret which is virtually identical to the spinneret of Example 1 in the instant specification and thus, Mallonee renders obvious the claimed depth to hydraulic diameter ratio.
- 9. Sawyer et al teaches a process of making biconstituent fibers (like Mallonee) using an L/D ratio as claimed, and such would have been obvious to one of ordinary skill in the art at the time the invention was made in the process of Mallonee in view of Sawyer et al principally in order to manufacture a desired fiber product.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1732

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
